

Fabiano Dalpiaz

Curriculum vitae

Personal Information

Date of birth	18/05/1981	Nationality	Italian
Gender	Male	E-mail	f.dalpiaz@uu.nl
Website	www.staff.science.uu.nl/~dalpi001/		
Office Address	Universiteit Utrecht Department of Information and Computing Sciences Buys Ballot Laboratory, office 580 Princetonplein 5, 3584 CC Utrecht, The Netherlands		
Phone (office)	+31 302535913		

Current Position

Sep 2013–now Assistant professor in the Organization & Information research group at the Department of Information and Computing Sciences, Utrecht University, The Netherlands. My research focuses on requirements engineering, with emphasis on increasing modeling languages, automated reasoning (based on logics and natural language processing) and gamification to increase the quality of the requirements engineering process and artifacts.

Education

- 2006–2011 **PhD in Computer Science**, *University of Trento*, Italy, International Doctorate School in Information and Communication Technology.
Exploiting Contextual and Social Variability for Software Adaptation
Supervisors: John Mylopoulos and Paolo Giorgini
URL: <http://eprints-phd.biblio.unitn.it/451/2/fabiano-phd-20110208.pdf>
- 2003–2005 **MSc degree in Computer Science**, *University of Trento*, Italy, 110/110 cum laude.
- 2000–2003 **BSc degree in Computer Science**, *University of Trento*, Italy, 99/110.

Previous Academic Experience

- 7/2012–8/2013 **Post-doctoral fellow**, *Dept. of Computer Science*, Canada, University of Toronto.
Participation in the NSERC BIN project, wherein I have contributed to the BIM modeling language in different ways (extensions for tactical modeling, usage of the model at runtime), and I developed a graphical modeling and reasoning tool for BIM (BIM-Tool).
- 2/2011–7/2012 **Post-doctoral researcher**, *Department of Information Engineering and Computer Science (DISI)*, Italy, University of Trento.
Design of a security requirements modeling language for socio-technical systems (STS-ml). The language has been extensively applied to case studies in the Aniketos EU FP7 research project, through its support modeling and analysis tool (STS-Tool).

Research Projects

Funded Projects

PACAS Participatory Architectural Change Management in ATM Systems—funded by the European Commission under the H2020 scheme, 247k€ awarded by Utrecht University, overall budget 1M€—concerns the participatory architectural evolution of Air Traffic Management (ATM) systems. The project delivers a participatory change management process where stakeholders will actively participate to the architectural evolution of the ATM system, based on (i) domain-specific modeling languages to; (ii) impact propagation techniques; (iii) a gamified platform to foster collaboration (2016–2018).

Participation

- BIN Business Intelligence Network—funded by the National Sciences and Engineering Research Council of Canada—proposes an innovation platform for pre-competitive research in Business Intelligence in Canada. Within the BIN network, the project “Design of a Business Intelligence Model” is concerned with devising a modeling language for strategic business models (2012–2013).
- Aniketos Ensuring Trustworthiness and Security in Service Composition—funded by the EU Commission, FP7—is concerned with the design and implementation of secure and trustworthy service compositions. The project lies within the scope of *Future Internet* services, that are (re-)composed, transparently to the end user, to guarantee security and trustworthiness (2010–2013).
- Lucretius Foundations for Software Evolution, is an ERC Advanced Investigator Grant awarded by Prof. John Mylopoulos. Lucretius is concerned with techniques for designing software systems that evolve in response to change. My work resulted in an executable modeling language for business process based on the notion of commitments (2011–2013).
- TasLab Trentino as a Lab—funded by the *European Social Fund*—supports the evolutionary process faced by local communities, users and enterprises (especially SMEs). TasLab is based on the “Innovation Tripole” concept, which is employed to establish partnerships between public administration, innovative SMEs and researchers (2009–2010).
- MEnSA Methodologies for the Engineering of complex software Systems: Agent-based approach—financed by the Italian Ministry for Education, University, and Research—employs a metamodel-based approach and proposes an integrated agent-oriented software engineering method for developing complex software systems (2007–2008).
- SERENITY System Engineering for Security and Dependability—financed by the EU commission, FP6—focuses on providing appropriate security and dependability (S&D) mechanisms for Ambient Intelligence (Aml) ecosystems. SERENITY creates a practical secure and dependable solution for these heterogeneous and dynamic architectures. (2006–2009).
- MOSTRO MObeling Security and Trust Relationships within organizations—financed by the Autonomous Province of Trento—aims is to detect security flaws in the very early stages of software design and development, taking into account the reasons for the existence of ineffective practices in software design. The project combines ontological analysis, security modeling, multi-agents reasoning, and systems engineering. (2006–2007).

Honors and Awards

- Invited to journal Four conference papers were invited for a journal publication: i) RE 2016 [25], journal paper under review; ii) RE 2015 [31] leading to Requirements Engineering Journal [5]; iii) BPMDS'14 [37] resulting in Software and Systems Modeling [4]; and iv) ER 2013 [40] resulting in Data & Knowledge Engineering 2015 [6].
- Best paper The RCIS 2015 paper [27] was selected as the best paper among 199 submissions.
- RE@40 Personal invitation to the RE@40 Seminar: Forty Years of Requirements Engineering—Looking Forward and Looking Back held at the Kloster Kappel, Switzerland.
- RE Jubilee Invited to the selection committee of the RE Silver Jubilee track of the RE'17 conference, a special track for the 25th anniversary of the conference reflecting on past, present and future of the discipline.
- Invited talks My work was featured in two invited talks: i) Asia-Pacific Conference on Conceptual Modelling (APCCM 2014) [63]; and ii) IEEE International Conference on Research Challenges in Information Science (RCIS 2013) [64].
- Teaching Three of my courses received a total of four teaching quality awards within the courses offered by the department in a given term: Serious Gaming Seminar (2013–2014 and 2015–2017), Game Production (2013–2014), and Information Security (2016–2017).

Supervision

Postdoctoral Research Associates

- 5/2016– **Fatma Başak Aydemir**, *Utrecht University*, Netherlands.
Research related to the PACAS H2020 project and to automated requirements engineering.

PhD Students

- 1/2017– **Davide Dell'Anna**, *Utrecht University*, Netherlands, Supervision of Autonomous Software Systems.
Co-promotor with Mehdi Dastani, promotor: John-Jules Meyer and Sjaak Brinkkemper.
- 9/2014–12/2017 **Garm Lucassen**, *Utrecht University*, Netherlands, Understanding User Stories: Applying Natural Language Processing to Foster Quality and Discussion.
Co-promotor, the promotor is Sjaak Brinkkemper.
- 9/2013–10/2014 **Kevin Vlaanderen**, *Utrecht University*, Netherlands, Supporting Process Improvement using Method Increments.
Co-promotor for the last year, the promotor is Sjaak Brinkkemper.
- 11/2010–5/2014 **Elda Paja**, *University of Trento*, Italy, STS: A Security Requirements Engineering methodology for socio-technical Systems.
Unofficial co-promotor, the promotor is Paolo Giorgini.

MSc and BSc Students

I supervised over 25 successful MSc students and some BSc students as first and second supervisor, leading to several publications, including Fabiano Francesconi [39, 28], Remco Snijders [85, 82, 65], Michal Korenko [79], Rick Barneveld [29], Bill Rountgas [32], Philipp Lombriser [22], Marcel Robeer [25], Jan Strien [26].

Tools

- My research often leads to tool prototypes, some of which are available online.
- Interactive Narrator Information visualization techniques for user stories [24] starting from the outputs of the Visual Narrator. URL: <https://github.com/Gionimo/InteractiveNarrator>

Visual Narrator	Extracts conceptual models from user story requirements, based on NLP heuristics [25]. URL: https://github.com/MarcelRober/VisualNarrator
AQUSA	The Automatic Quality User Story Artisan tool uses NLP to identify flaws in the linguistic structure of user story requirements. URL: https://github.com/gglucass/AQUSA
STS-Tool	Support tool for security requirements modeling and automated reasoning with the STS-ml language [97, 98, 60]. URL: http://www.sts-tool.eu
BIM-Tool	Modeling and reasoning tool for the Business Intelligence Model (BIM) language, which supports “what-if” and “is it possible?” based on a Datalog encoding. URL: www.cs.toronto.edu/~jm/bim
FM-Context	Support tool for modeling and automated analysis of contextual feature models [42]. Reasoning used a disjunctive Datalog reasoner. URL: http://goo.gl/wx3VI
GCAadapt	Simulator for requirements-driven adaptive agents based on the goals & commitments approach [48]. GCAadapt makes use of a SAT-based automated solver. URL: http://goo.gl/wx3VI

Teaching

Lecturer	Game Production , Utrecht University, Master’s in Business Informatics. This course presents the list of activities, methods, models, and tools to support the production of videogames (2013–2014, 2014–2015, 2015–2016, 2016–2017)
Lecturer	Information Security , Utrecht University, Bachelor in Information Science. This course teaches the fundamentals of information security and presents the use of modeling languages for designing of secure socio-technical systems (2015–2016, 2016–2017)
Lecturer	Serious Gaming Seminar , Utrecht University, Master’s in Business Informatics. This course introduces the notion of serious games and lets the students conduct research in the field by choosing a domain or a topic of choice (2013–2014, 2014–2015, 2015–2016)
Lecturer	Organizations & ICT , Utrecht University, Bachelor in Information Science. This course introduces principles and techniques that help adequately employing information and communication technology within organizations (2013–2014, 2014–2015)
Lecturer	Business Informatics Summer School , Utrecht University, Master’s in Business Informatics. Course offered to a limited number of students who conducted research on smart cities, with a field study in Seoul and Songdo, Korea (2013–2014)
Lecturer and TA	Organizational Information Systems , University of Trento, Master in Computer Science, coordinator John Mylopoulos. This course presents the main techniques for modeling organizations and gives the foundations for designing information systems. I was responsible for the labs in 2009–2010, and I have taught most of the course (3/4 of the lectures) in (2010–2011, 2011–2012)
TA	Agent-Oriented Software Engineering , University of Trento, Master’s in Computer Science, taught by Prof. Paolo Giorgini. This course introduces the agent-oriented paradigm applied to software engineering. Labs coordinator (2008–2009, 2009–2010)

Involvement in Scientific Events

Organization

REFSQ 2018	Local Organization Chair of the 24th International Working Conference on Requirements Engineering: Foundation for Software Quality, Utrecht, Netherlands, March 19-22, 2018.
------------	--

- NLP4RE Co-organizer of the 1st International Workshop on Natural Language Processing for Requirements Engineering (NLP4RE), co-located with the 24th International Working Conference on Requirements Engineering: Foundation for Software Quality, Utrecht, Netherlands, March 19, 2018.
- RE 2018 Communication and Media Co-Chair of the 26th IEEE International Requirements Engineering Conference, Banff, Canada, August 20-24, 2018.
- AIRE'17 General chair of the 4th International Workshop on Artificial Intelligence for Requirements Engineering (AIRE'17), co-located with the 25th IEEE International Requirements Engineering Conference, Lisbon, Portugal, September 4-5, 2017.
- REFSQ 2017 Posters and Tools Co-Chair of the 23rd International Working Conference on Requirements Engineering: Foundation for Software Quality, Essen, Germany, February 27, 2017.
- SAC 2017 Requirements Engineering Track co-chair of the 32nd ACM Symposium on Applied Computing, Marrakech, Morocco, April 3-7, 2017.
- AIRE'16 Co-organizer of the 3rd International Workshop on Artificial Intelligence for Requirements Engineering (AIRE'16), co-located with the 24th IEEE International Requirements Engineering Conference, Beijing, China, September 12, 2016.
- RCIS 2016 Doctoral Consortium Chair of the 10th International Conference on Research Challenges in Information Science, Grenoble, France, June 1-3, 2016.
- EMAS 2014 Co-organizer of the 2nd International Workshop on Engineering Multi-Agent Systems (EMAS 2014), co-located with the 13th International Conference on Autonomous Agents and Multiagent Systems, Paris, France, May 5-6, 2014.
- iStar'14 Co-organizer of the 7th International i* Workshop (iStar14), co-located with the 26th International Conference on Advanced Information Systems Engineering (CAiSE'14), Thessaloniki, Greece, June 16-17, 2014.
- RESC'11 Co-organizer of the 1st International Workshop on Requirements Engineering for Social Computing (RESC'11), co-located with the 19th IEEE International Conference on Requirements Engineering, Trento, Italy, August 29, 2011.

Steering Committee and Editorial Board

- RE Journal Editorial Board of the Requirements Engineering Journal, Springer, since 2017.
- REFSQ Steering Committee Member of the International Working Conference on Requirements Engineering: Foundation for Software Quality, 2017-2019.
- AIRE Steering Committee Member of the International Workshop on Artificial Intelligence for Requirements Engineering, since 2017.

Program Committee

- RE International Requirements Engineering Conference: 2018.
- CAiSE International Conference on Advanced Information Systems Engineering: 2012-2016.
- AAMAS International Joint Conference on Autonomous Agents and Multi-agent Systems: 2015-2016, 2018.
- ER International Conference on Conceptual Modeling: 2014-2018.
- MODELS International Conference on Model Driven Engineering Languages and Systems, Foundations Track: 2015-2016.
- REFSQ International Working Conference on Requirements Engineering: Foundation for Software Quality: 2017.
- RE New ideas track of the International Requirements Engineering Conference (RE:Next!): 2016-2017.

- RCIS International Conference on Research Challenges in Information Science: 2012–2014, 2016–2017.
- SEAMS International Symposium on Software Engineering for Adaptive and Self-Managing Systems: 2013.
- ACM SAC Requirements Engineering Track of the ACM Symposium on Applied Computing: 2018.
- SCME Symposium on Conceptual Modeling Education: 2016.
- EMAS International Workshop on Engineering Multi-Agent Systems: 2014–2016, 2018.
- MISE International Workshop on Modeling in Software Engineering: 2015–2018.
- AIRE International Workshop on Artificial Intelligence for Requirements Engineering: 2016–2018
- GAS International Workshop on Games and Software Engineering: 2016.
- ISSC International IEEE Symposium on Software Crowdsourcing: 2015.
- HotSoS International Symposium and Bootcamp on the Science of Security: 2014.
- FSEN International Conference on Fundamentals of Software Engineering: 2015.
- ICAART International Conference on Agents and Artificial Intelligence: 2013–2014.
- MS IEEE International Conference on Mobile Services: 2013.
- KEOD International Conference on Knowledge Engineering and Ontology Development: 2012, 2013.
- AICCSA International Conference on Computer Systems and Applications, “BPM, Web Services, SOA” track: 2013.
- CISIS Artificial Intelligence and Agent Technology track, International Conference on Complex, Intelligent, and Software Intensive Systems: 2012.
- ICCCI International Conference on Computational Collective Intelligence Technologies and Applications: 2012.
- REFSQ-P&D Posters & Demos track, International Working Conference on Requirements Engineering: Foundation for Software Quality: 2016.
- RE-Demos Posters & Demos track, International Conference on Requirements Engineering: 2013–2014.
- CAiSE Forum International Conference on Advanced Information Systems Engineering: 2013–2014.
- AffectRE International Workshop on Affective Computing for Requirements Engineering: 2018.
- EmpiRE International Workshop on Empirical Requirements Engineering: 2017.
- MReBA International Workshop on Conceptual Modeling in Requirements and Business Analysis: 2016–2017.
- WAWSE Workshop on Alternative Workforces in Software Engineering: 2015.
- CrowdRE International Workshop on Crowd-Based Requirements Engineering: 2015, 2017.
- RESACS International Workshop on Requirements Engineering for Self-Adaptive and Cyber Physical Systems: 2015, 2018.
- RIOT International Workshop on Requirements for the Internet of Things: 2018.
- SC-AAMAS International Workshop on Multiagent Foundations of Social Computing: 2014–2015.
- iStarT International iStar Teaching Workshop: 2015, 2017.
- iStar International i* Workshop: 2011–2018.
- MReBA International Workshop on Conceptual Modeling in Requirements and Business Analysis: 2014–2017.
- RIGiM International Workshop on Requirements, Intentions and Goals in Conceptual Modeling: 2012–2013.
- QUAMES International Workshop on Quality and Measurement of Software Model-Driven Developments: 2013–2015.
- RRT International Workshop on Requirements@run.time: 2012.

- ESAS IEEE International Workshop on Engineering Semantic Agent Systems Workshop: 2012.
 SSE International Workshop on Social Software Engineering: 2011–2015.
 TouchTheWeb International Workshop on Web-Enabled Objects: 2010.

Tutorials in Conferences

- ER 2016 iStar 2.0: A Guided Tour. Tutorial given at the 35th International Conference on Conceptual Modeling, Gifu, Japan, November 14, 2017
 RE'17 Security Requirements Engineering. Tutorial given at the 24th IEEE International Requirements Engineering Conference, Beijing, China, September 13, 2017
 CAiSE'13 Security Requirements Engineering for Socio-Technical Systems. Tutorial given at the 25th International Conference on Information Systems Engineering, Valencia, Spain, June 19, 2013
 RE'12 Security Requirements Engineering for Socio-Technical Systems. Tutorial given at the 20th International Requirements Engineering Conference, Chicago, Illinois, United States, September 27, 2012

Reviewing

- Journals Computer (IEEE); Software (IEEE); Transactions on Software Engineering (IEEE); Transactions on Software Engineering and Methodology (ACM); Requirements Engineering (Springer); Information Systems (Elsevier); Journal of Systems and Software (Elsevier); Information and Software Technology (Elsevier); Software Practice and Experience (Wiley); Transactions on Internet Computing (ACM); Journal of Software Engineering Research and Development (Springer); International Journal of Agent-Oriented Software Engineering (Inderscience); International Journal of Information System Modeling and Design (IGI Global); IET Software (IET); Information Sciences (Elsevier); Behaviour & Information Technology (Taylor & Francis); Information Processing Letters (Elsevier); Software and Systems Modeling (Springer); Journal of Software Maintenance and Evolution: Research and Practice (Wiley); International Journal of Cooperative Information Systems (World Scientific).
